JOB TITLE

A highly motivated and well versed frontend developer with a strong passion for learning and building websites that provide users a great experience

TECHNICAL SKILLS

HTML5, CSS3 (BEM), Javascript ES6+, React (+hooks), npm, Git, GitHub, and Version Control, Redux, SASS, Yam, and React dev tools, Chrome Dev tools, Ruby, Ruby on Rails, AWS, Postman API platform

TECHNICAL PROJECTS

E-portfolio -[Github](#) | [Demo](#)

Brief description of the app's functionality and purpose

- Designed, developed and hosted my e-portfolio using semantic HTML5 and CSS3 (+BEM) best practises
- Provided support for search engine optimisation for higher indexing through Google's search engine crawler
- Included responsive and multi-platform support to enable the portfolio to be viewed on any platform

Weather App -[Github](#)

Brief description of the app's functionality and purpose

- Used a weather API to fetch data and update weather condition in real time through HTTP requests
- Designed and developed the website through HTML5, CSS3 and Javascript best practises
- Utilized responsive features for user friendly interactions

EXPERIENCE

UB Fall Hackathon 2022

Buffalo, NY

Mozam - Fullstack Website

11/2022

- Collaborated with a team and developed a website with implementation of both Frontend and Backend
- Used Ruby on Rails for Backend, Reactjs for Frontend, Excalidraw and Figma for UI design
- Implemented Websockets for real time messaging, Twilio for login authentication, created a custom token which was then used for transactions through Metamask
- Stored user data on the backend through the Postman API platform to track user information including but not limited to: IP address, location, etc.
- Lead the team through different sections of the project and managed the processes in order to ensure fluidity of the code and team work

Freelance

NY, NY

Frontend Software Engineer

07/2022 - Present

- Engineered scalable, responsive, multi-platform and SEO friendly websites for multiple clients using HTML5, CSS3 + BEM, Javascript ES6+, and React best practices
- Communicated business requirements with stakeholders and delivered high quality solutions
- Connected backend API's through axios CRUD HTTP requests

Team Akib

City, State

Online Fitness Coaching

02/2022 - Present

- Gathered 40+ clients for individualized training and nutrition programs with consistent check-ins
- Provided on call communication through scheduled appointments and timely feedback
- Used social media to leverage a large applicant pool for coaching services and serviced plans through microsoft office tools
